Rei (零) / Vocalist and Bassist

Rei started playing the bass during her high school years.

She met Yu-Ra and formed unclose with him in 2012. Her style of playing landed ‘vocals and bass’ from playing the bass only.

Most of the band performances are directed and created under her control.

Totally speechless with her performances that breaks down existing style of the vocals and her expressiveness a quasi like a theatrical play.

Delicate, gallant and fascinated performances...she receives a high appraisal here in Japan and from overseas.

Main bass is L's Trust Custom bass.

- Muneharu (宗晴) / Guitarist

His Perform is bold and to play intricate phrase.

Main guiter is L's Trust Custom guitar and main equipment is Verocity Effects Pedal. Those are Japanese brand.

His playing is strong and powerful, like an emotion.

He arranges the strings sections in additional to creating the songs in Unclose.

He currently plays and endorses TRX cymbals.
